

Virtual Work Experience: Software Engineer

Micro Unit Outline

- **Relates to:** I.T./Computer Science; digital literacy and online safety; career exploration; work experience

Date		Room	
Period		Class	

Equipment and resources

Each student requires a computer/device with good internet access and earphones.

Accommodations and adjustments

Virtual Work Experience: Software Engineer

Years: 7-12

Duration: 2-5 lessons

Introduction:

- Transform the [Year13 X CommBank Software Engineer Virtual Work Experience](#) from an individual student experience to a teacher-led class learning activity.
- Students gain insight into the world of software engineering and earn a certificate for their portfolio.
- The Virtual Work Experience (VWE) will span several lessons depending on the length of your classes.
- Students must mark all activities as complete and finish the survey to earn their certificate.

Learning Intentions:

- Explore the career of a software engineer.
- Identify key skills and pathways in software engineering.
- Apply software engineering concepts to practical scenarios.

Enterprise Skills:

- Creativity
- Digital literacy
- Problem solving
- Communication, collaboration and teamwork (if creating games in teams)

Student Success Criteria:

- ✓ I can explain what software engineer is and what one does.
- ✓ I actively engage in the VWE activities to demonstrate my enterprise skills.
- ✓ I reflect on my learning experience and save my certificate to my profile.

Software Engineer

Lesson Activity	Teacher Instruction
<p data-bbox="316 1167 491 1245">Introduction 15 min</p>	<p data-bbox="651 405 711 434">Ask</p> <p data-bbox="651 450 1374 611">Note responses on the board. Add new insights as the answers are revealed throughout the VWE. Reflect upon the questions at the end to measure how students' understanding has deepened.</p> <p data-bbox="651 622 1299 651">Activate students' prior knowledge by asking:</p> <ul data-bbox="671 667 1361 875" style="list-style-type: none"><li data-bbox="671 667 1361 745">• What is 'software engineering' and why is it important?<li data-bbox="671 757 1361 835">• What does a software engineer do and where might they work?<li data-bbox="671 846 1361 875">• What interests and skills do they need? <p data-bbox="651 931 1086 960">Read and Watch (4 min video)</p> <p data-bbox="651 976 1366 1137">Read the Software Engineer Virtual Work Experience Overview with the class. Ask students to identify answers to these questions as you watch the video together:</p> <ol data-bbox="671 1149 1366 2018" style="list-style-type: none"><li data-bbox="671 1149 1366 1357">1. What was Jasmina's pathway to her current role? Started biomedical engineering -> enjoyed coding -> transferred to software engineering -> various internships -> CommBank Graduate Program.<li data-bbox="671 1368 1366 1529">2. What are the two main pathways she identifies? Bachelor's degree in software or data engineering or a short 3-6 month bootcamp or certification.<li data-bbox="671 1541 1366 1659">3. How did she find her internships? Used her careers hub and careers counsellors; online resources like LinkedIn, Seek, and Indeed.<li data-bbox="671 1671 1366 1832">4. What are the important skills she identifies? To be able to articulate what you have done to people without technical backgrounds; coding skills.<li data-bbox="671 1843 1366 2018">5. What advice does she give to 17-year-olds interested in engineering? Be curious; there are a lot of online resources to help you; collaborate with a team.

<p>A Day in the Life 15 mins</p>	<p>Read Read the day in the life of a Software Engineer information with the class so they understand the key terms.</p> <p>Watch (3 min video) Watch the day in the life video with the class.</p>
<p>Pathways 5-10 mins</p>	<p>View pathways map</p> <p>Ask students to explain their understanding of:</p> <ol style="list-style-type: none"> 1. The equivalent senior subjects for your state (map suggestions are for HSC). 2. Bootcamp: intensive short courses to learn practical skills. Not always accredited but may be industry recognised. 3. Bachelor's Degree: first university qualification; usually 3-4 years. 4. VET: Vocational Education & Training at TAFE or a Registered Training Organisation (RTO). Remind students that a VET Diploma or Advanced Diploma may provide entry to, and credit towards, a university degree.
